# INFLATABLE DOCK

Elevate your yacht experience with our high-quality Inflatable Dock with EVA Teak, designed for luxury and durability.

## Characteristics:

### Resistant EVA Teak

Featured with realistic EVA teak surface that offers durability, easy maintenance, and an anti-slip design for safety in wet conditions.

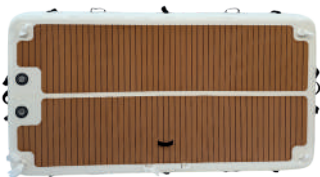

### Two Valve System

The two-valve system enables faster inflation and deflation, allowing for precise control, and reducing setup time for optimal performance.

### Convenient Storage

When not in use, the inflatable dock can be easily deflated and stored compactly, making it ideal for limited space onboard.

# CUSTOM PRODUCTS & SETS

## Characteristics:

### Surface & Quality

- **PVC Anti Slip Surface:**

Compact in storage and ideal for projects requiring enhanced grip, such as work platforms and walkways. It's also perfect for boats with limited storage space, as the anti-slip surface is designed to be storage-efficient.

- **EVA Teak Surface:**

Crafted from high-quality materials, it offers both aesthetic appeal and comfort. Built to be durable and safe.

### Design

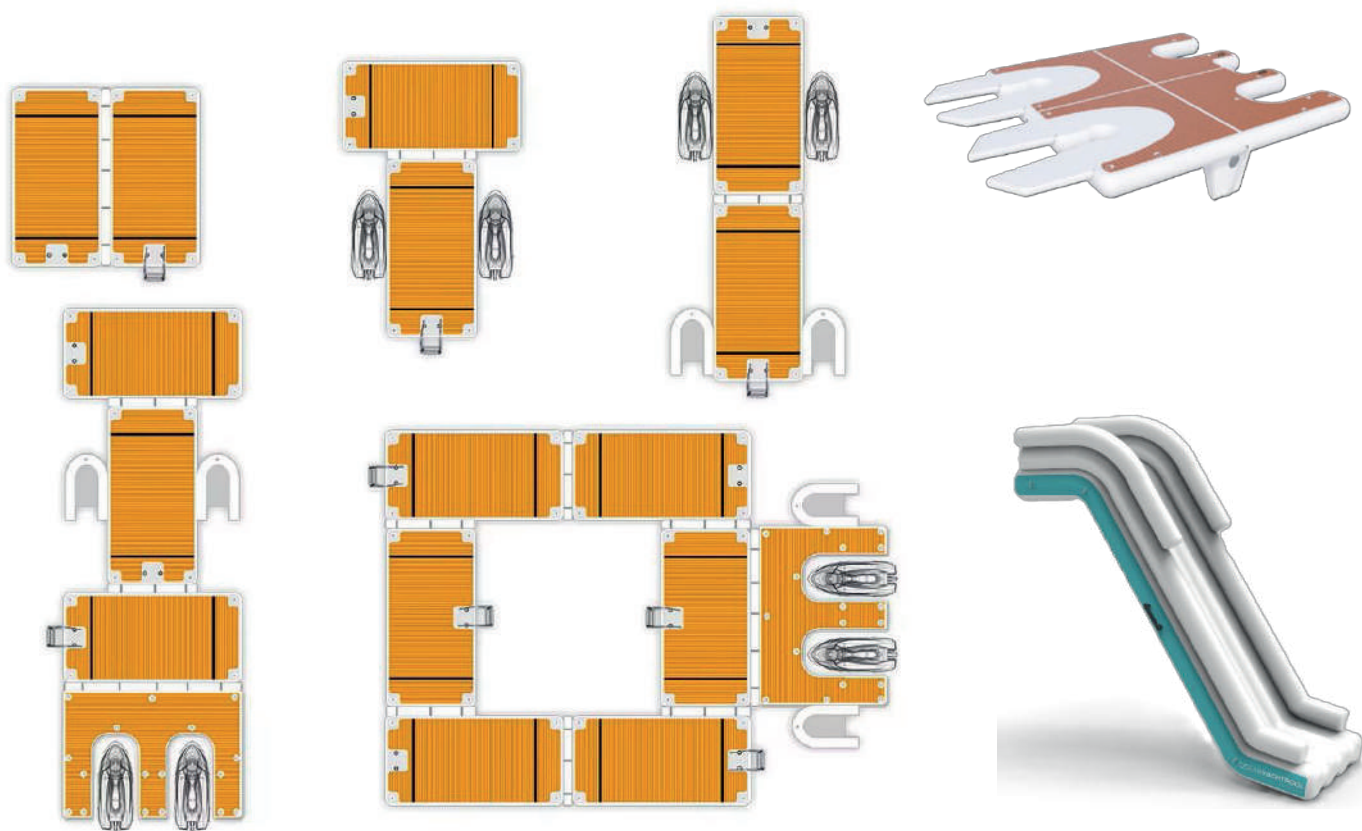

All of our products are crafted to be as lightweight as possible, while maximizing storage efficiency and ensuring quick inflation and deflation.

We design with your specific needs in mind, offering easy-to-combine products and modular designs for enhanced convenience.

### Branding

Yacht Name, Logo and Color on your Platform, Pool, Dock and Slide as you wish.
